Email: anuragkumar9624@gmail.com
Mobile: +91-9576171726

Skills

- **Languages**: C++, Python, Java
- **Frameworks**: Scikit-learn, Keras, TensorFlow
- **Tools/Platforms**: Git, GitHub, Maven, Docker, Jupyter Notebook, Google Colab, Anaconda
- **Core Competencies:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
- **Soft Skills**: Problem-Solving, Team Player, Adaptability

Projects

- **MedSure – Medical Prescription Classification System**: GitHub — Oct' 25
  - Developed an intelligent platform to analyze and classify patients' medical prescriptions using unsupervised learning techniques to streamline medical data organization.
  - Designed and implemented data preprocessing pipelines to extract and cluster key medical information from prescriptions using machine learning algorithms.
  - Improved the efficiency of prescription management by allowing quicker sorting and access to medical data.
  - **Tech**: Python, Scikit-learn, Pandas, NumPy, Matplotlib
- **Sustainable Energy Suggestion System**: GitHub — May' 25
  - Built an intelligent system that classifies and recommends the most suitable sustainable energy source (solar, wind, etc.) based on user's pin code and regional parameters.
  - Integrated multiple APIs to collect real-time geographical and environmental data, and implemented supervised machine learning models to predict the optimal energy source for each region.
  - Achieved accurate energy recommendations, supporting data-driven decision-making for users and promoting renewable energy adoption.
  - **Tech**: Python, Scikit-learn, Pandas, NumPy, APIs, Flask, Jupyter Notebook

Training

- **Allsoft Solution – IBM Global Business Partner** Certificate — Jun' 25 - Jul' 25
  AI & ML Trainee
  - Selected for a six-week professional training program on Artificial Intelligence and Machine Learning, organized by Allsoft Solution in collaboration with IBM.
  - Engaged in hands-on sessions focusing on AI model development, supervised and unsupervised learning, and open-source frameworks under the mentorship of IBM Subject Matter Experts (SMEs).
  - **Tech stack used**: Python, Scikit-learn, TensorFlow, Pandas, NumPy, Jupyter Notebook, IBM Cloud

Certificates

Master Generative AI & Generative AI tools - Udemy Certificate	Aug' 25
Computational Theory: Language Principle & Finite Automata Theory - Springboard Certificate	Aug' 25
Privacy and Security in Online Social Media - NPTEL Certificate	May' 25
Mastering in C: Basic to Beyond - CSEPathshala Certificate	Mar' 24

Achievements

Solved 150+ Problems on LeetCode: — Mar' 26
Built strong problem-solving skills by completing over 150 data-structures and algorithm challenges.

HackerRank C++ 5-Star Rating: — Jan' 26
Achieved 5-star rating in problem solving by consistently solving algorithmic and data structure challenges.

NPTEL Certification Elite Award: — May' 25
Placed among the elite performers nationwide out of 12,697 participants.

Education

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.9*** — *Since Aug' 23*

Indian Public School — Madhubani, Bihar
Intermediate; ***Percentage: 80*** — *Apr' 20 - Mar' 22*

Indian Public School — Madhubani, Bihar
Matriculation; ***Percentage: 76*** — *Apr' 18 - Mar' 20*
